New Contracts For Companies Will Be Warmly Debated in Congress

Washington, March 8.—A warm debate over President Roosevelt's call for a private air mail system on a radically revised basis was in prospect to-day.

Republicans will probably have much to say when the legislation reaches the floor. Many in the G.O.P. ranks have openly accepted the air mail situation as an issue. Senate and House of Representatives committees hastened to whip into bill form the President's suggestion for the return of the malls to private carriers on the basis of "honest payment for honest service."

To "avoid evils of the past," the President proposed these ideals for legislation:

J. Chiappe of Paris Says Eugene Frot Planned to Be French Dictator

Paris, March 8.—Jean Chiappe, former prefect of Paris police, clung today, despite denials from the man accused, to his sensational story that former Minister of the Interior, Eugene Frot, had planned through the recent Paris riots to set himself up as a sort of minor dictator in France. The charge was huried before a parliamentary investigating committee yesterday. It brought a scornful denial from M. Frot. M. Chiappe retorted he stood absolutely by all he had said.

The committee has decided to confront M. Chiappe with both M. Frot and former Premier Edouard Daladier, under whom M. Frot served.

The popular Chiappe, whose dismissal by M. Daladier added to the government's public disfavor, told the committee he had warned the then Premier that M. Frot had recruited followers to back him in putting his plans into execution. M. Frot was in charge of maintaining the public order.

The charges are an outgrowth of

Coal Prices Are Topic of Debate

Dr. H. Deslauriers, Montreal, Tells Commons He Believes Imports Cost Too Much

Canadian Press
Ottawa, March 8.—Canadian consumers were being "shamefully exploited" by the importers of fuel, it was charged in the House of Commons yesterday afternoon by Dr. Hermas Deslauriers, Liberal, 8°, Mary Division of Montreal.

He moved the government appoint a commission to "control the importation of all fuels in Canada." The debate was not finished when the House rose and the resolution may not be reached again for some time. Mr. Deslauriers contended coal landed in Montreal for 85 a to m was being sold to the consumers at prices that sometimes amounted to as high as \$20 a ton.

Mr. Deslauriers wondered why Russian coal was not allowed to be housely the Canada House was the second of the consumers and prices that sometimes amounted to as high as \$20 a ton.

Montreal. March 8.—A body blow at illegal distribution of arms and ammunition to criminal hands in Montreal was struck by provincial police in an important raid yesterday. They seized twenty-eight loaded revolvers, 1.000 boxes of cartridges, five rifles, three shotguns, twenty daggers, twenty-five black-jacks. and a number of axes in a house in suburban Outremont.

Three months of careful investigation into, underhand circulation of deadly weapons were climated to the control of the Saskatchewan Legislature included in the government's estimates provided in the number of cabinet ministers is provided for. The estimates provide only for the premier and six cabinet ministers, at \$7,500\$ and \$8,000\$ each, respectively. Last year's estimates provided in the number of cabinet ministers and premier and six cabinet ministers, at \$7,500\$ and \$8,000\$ each, respectively. Last year's estimates provided \$12 a day for ministers without portfolio. Ministers without portfolio displayed from the estimates provided for.

DISORDERS IN

A man, declared to be a leading figure in Montreal's underworld, was in the house at the time police descended on it and was placed under street. His name was withheld pending arraignment.

The weapons, police announced, were not only sold to persons having no permits to possess them, but they were rented to racketeers and bandits for the purpose of armed robbery. Clues pleked up on the trail which led to the storehouse were expected to lead to a number of arrests, probably cleaning up a large number of hold-ups carried out here this winter.

Baltimore, March 8 (Associated Press).—The last shot of the Civil War was fired Saturday at the Gettysburg battlefield. WORTHY CAUSES

THE ANNUAL APPEAL FOR FUNDS TO assist the Young Men's Christian Association and the Young Women's Christian Association is to be undertaken between the dates of March 12 and 16, and it is hoped the generous public of this community will respond to the best of its ability.

The programme of the Y.M.C.A. is in unusual demand by hundreds of our boys and young men. The Y.W.C.A. is doing a similar work for the girls and young women of the community, and the demand

In these difficult times it is imperative, as Mayor Leeming, chairman of the campaign, points out in his official circular letter, that young men and young women should be given an opportunity to spend their leisure hours in a healthy and wholesome atmosphere. The Y.M.C.A. and Y.W.C.A. offer unequalled facilities for training the youth of the city both in mind and body. Indeed, these world-wide institu-tions are of inestimable value to all citizens.

The additional duties which have been thrust on these associations by prevailing conditions have made it impossible to cover operating costs, Hence the special effort which is to be made next week. The Times bespeaks for the campaign complete success.

NOT THE TIME

THE GREAT MAJORITY OF THE CANadian people will agree with Hon. Wesley Gordon, Minister of Immigration in the Bennett govern-ment, in his contention that this is no time for Canada to embark on a grandiose scheme to attract migrants.
"I think the time will come," the Minister told the
House of Commons, "when this country will again sufficiently attractive so that many more hu of thousands of people will come here from the United But present conditions did not warrant

It is well known that the Dominion government definitely unwilling to share any of the cost of cing British settlers in Canada, and it is said to be influenced by the unfortunate experience with previous schemes of assisted land settlement.

There has been a total investment of \$112, for example, in connection with the se settlers, but in the writing-down of the debt at difrent times and the cancelling of interest paymere has been a total loss of \$62,000,000. A

12,000 of the soldiers have abandoned their farms.

The soldier settlement scheme was started with very best of intentions, but the prices of land of farm products were high at that time, and when the prices of wheat and other products fell. settlers felt their debts more burde Some had also been located on poor land. The fact is, however, that the government has taken a heavy

The 3,000 families' scheme, started under different and better circumstances, has also brought a relatively heavy loss. Even before the present de-pression, many of the 3,346 families brought out from Britain were having a difficult time. The sh government had advanced loans to the settlers, while the Canadian government provided the land. By the end of 1931, seven years after the launching the scheme, 1,245 families, or more than a third of the total number, had dropped out. Since the depression, the payments by the settlers have fallen off very badly. Of the \$762,000 due in 1931, it s said that only \$109,000 was paid. Out of 2,157 ettlers from whom payments were due, 150 made payments in full, and 810 made part payments, nile 1,200, or more than half the settlers, paid

The position of these settlers has been made much more difficult by the depression, and, in order to encourage payment of their obligations, these have been cut thirty per cent and, for the three years 1933-1935, the settlers are being given credit for twice the amounts actually paid.

Apart from the adverse conditions in connection with both these settlement schemes, there was a considerable element of failure in each. This has helped turn the country against assistance for such settlement, since self-reliance and the efforts of the settlers are evidently the essentials for success.

"HORSE AND BUGGY DAYS"

THERE IS SOMETHING PECULIARLY fascinating in pictures that take us back to the nd of the last century. The clothes and customs of a former day always look pleasantly grotesque, if you get far enough away from them; there is a unique sort of pleasure in looking at some gawky, fantastically-garbed youth and realizing, suddenly, hat that is yourself as you used to look.

But there is a little more in the present popularity of old-time pictures than that. These collections of photos that date back to the 1890's and beyond the first of a series will be found on another page in this issue of The Times—give us a spy-glass through which we can peer through a door that time has closed and see an era which has gone from this earth forever. And the oddest thing about it all is that ost of us, as we look on that era, have a sneaking, half-conscious wish that we might get back there.

For that bygore era—that time when gay blades rode perilous high-wheeled bicycles, and women's bathing suits were more voluminous than their street frocks are now, and minstrel shows were a popular diversion, and motorists were linen-coated pioneers who rode in frail juggernauts which used to frighten horses—that era, whatever its faults may have been, seemed at least to be a time of certainty. We knew where we were going, then—or we thought we did, and that was about as good—and we had no doubt at all that presently we should get there. Human society seemed to have reached a static phase, and,

while its organization had certain faults that everybody recognized, it still seemed to be a fairly well-arranged and stable affair.

Radio crooners were unheard of in those days. Radio crooners were unheard of in those days. There were no traffic jams, and neither were there any Hitlers or Mussolins or Stalins. It was, in short, a simpler age than this one, and it contained far less to worry about. We can not get back to it, and if we really could we probably should think twice about it. But at this distance it has a sort of halcyon look. It is misty with enchantment, because it was a time when the problems which beset us now still were below

TROUBLE IN UNIFORM

DISPATCHES FROM LONDON REPORT that the British government seriously is considering action to disband all uniformed political bodies, such as the Fascist black-shirts organized by

izations to the extent that continental countries have been; nevertheless, she is beginning to have difficulties with them, and during the last six months of 1933 no fewer than twenty-two disturbances in which men wearing political uniforms were involved

As a general thing, it can be said that when political parties take to organizing their young men into semi-military bodies, dressed in distinctive uni-forms, there is trouble ahead. These bodies are not forms, there is trouble ahead. These bodies are not designed for use in harmless parades; they are organized for fighting, if their directors think it necessary—fighting with their fists, with clubs, or with guns. And the Mosley black-shirts already are equipped with a small fleet of armored cars.

There is precious little place for the shirted gentry in a democracy, and if the British government plans to abolish them the action will be very easy to understand.

MISPLACED TALENT

A SIXTEEN-YEAR-OLD SCHOOLBOY IN Saskatchewan recently was sentenced to two imprisonment because he had spent his spare

time forging \$5 bills.

Using a box of school paints, a home-made die and some bits of linen paper, this youngster turned out imitation bank notes which astounded the Saschewan authorities by their close resemblance to the real thing. And it is good to note that the judge who sentenced him said that a parole would be recom-mended if a training school could be persuaded to

make a place for him. A sixteen-year-old boy who can use such crude tools to turn out such excellent work—excellent, of course, from a purely technical standpoint—must have

Given the right kind of handling, such a lad-ought to become a most serviceable member of society. It would be tragic if such exceptional ability were permitted to become perverted permanently.

4HONORING THE ENEMY

THE WAYS OF A STATESMAN SOME times are somewhat difficult to understand. Austria's stocky little Chancellor Dollfuss seems to be

Trying to patch up the wounds which he helped to inflict on his tortured country, the Chancellor the other day pleaded for national harmony and remarked that "we cannot but respect the bravery of marked that "we cannot but respect the bravery of the Socialists and their loyalty to their ideals," And, he added, "we must do all we can to heal the open

Yet, on the same day, he hanged another Socialist leader, sentenced two more to life imprisonment, pad-locked all Socialist bookstores, and saw to it that

As a method of healing open wounds and sho ing respect for the bravery of one's opponents, this would seem to be almost unique.

WHAT OTHER PAPERS SAY

JAPAN The London Express

The active Japanese propose also to spend £370,000 constructing airdromes in Baipain, the chief issand in the Ladrone Group. They hold this island under mandate from the League of Nations, but just let the League try to get them out of Saipan. Before you get tired of Pacific geography, please note that Saipan is within striking distance of the Philippines, also America. Still more interesting to Australians is its proximity to their country.

A fellow-journalist, who works on the newspaper, gives us another example of how things have changed under the New Deal. He was assigned by his city editor to find Mrs. Roosevelt the last time she was in town and get a brief statement on some small matter. Expecting an afternoon of red tape, he began by calling up the Sixty-Fifth Street house—the number is plainly in the book, like any other number. A lady's voice answered, and the reporter asked for Mrs. Roosevelt's secretary. "I'm sorry," said the lady, "Mrs. Roosevelt's secretary isn't in now, but this is Mrs. Roosevelt. May I take the message?" The reporter asked what he wanted and Mrs. Roosevelt told him the answer. It only took a minute or two.

THE GOLD CLAUSE

A part of what we shall economize by paying our New York liabilities in American funds will certainly go to gratify the English lenders who were wise enough to lend us some hundreds of millions years ago. In the opinion of the bankers, when all these aettlements are concluded. Canada will not have lost anything on exchangs. The lesson is none the less important. In future our debentures must be so inscribed that paymnt shall be made in Canadian dollars or in the currency of the country where they are held. If possible, for greater protection against currency fluctuations, it would be prudent only to promise payment in Dominion bills. If the national credit is maintained, wise lenders will not refuse to sell us their money on account of such a clause. For if exchange turned out in our such a clause. For if exchange turned of favor they would profit by such a provision.

A THOUGHT

And the prayer of faith shall save the sick, and the Lord shall raise him up; and if we have committed sins, they shall be forgiven, him.—Peter v 15.

Certain thoughts are prayers. There are moments when, whatever be the attitude of the body, the soul is on its knees.—Victor Huge.

Across the Bay

Mr. Uphill performs the usual pagan ceremonies — but finds his speech has been fliched by his friend Gerry—who has left him a poor one instead—Major MacKay is emotional — Mr. Putnam is blunt—and the dehate still lives

the legislative buildings.

From there he discussed trade and economics at some length with the notable sentiment, "To hell with world markets." Nor could he see any sense in the talk of putting everybody back on the land "when the farmers, Mr. Speaker, is all goin' to the poor house in automobiles, and horses hitched up to pull 'em, because they haven't got the price of gaso-line!" No, the thing required was to increase the purchasing power of the Canadian people, and Mr. Speaker well knew that if the honorable members' indemnities were increased members' indemnities were increase four times he, Tom Uphill, wo show the world how money could

He gave the House some facts about He gave the House some facts about relief camps and said that if all the men in them were on strike, as he understood, it was no wonder, especially if conditions here were compared with those in the work camps of the United States. The men were fed, true, but life, said Mr. Uphill, did not end with food. Why, even hogs were fed.

AT CHURCH

AT CHURCH

PINALLY Mr. Uphill said he had been at a church bazaar recently and a fortune teller had held his hand and told his character by reading his palm; and the longer she held his hand the worse his character became. In the same way, Mr. Speaker, the government's character would deteriorate the longer it sat with idle hands and failed to implement its piedge of work and wages. With this weird parable Mr. Uphili concluded his work of the session.

Before him came Major MacKay, the new representative of Carboo. Major MacKay is a conscientious and serious gentleman with a rather evangelical manner of speaking, as if he had been trained in a pulpit. He holds his hands tightly clasped before him and rises to considerable heights

A TRAVELED CANUCK

To the Editor:—We are sure all can learn from the letter written by A Traveled Canuck. See now ladies, how the men despise you for doing the things they do! We remember Aunt Het saying: "It sems to me, that them women as wants to ape men don't know no men excep" the onnery ones." She could have added how few others there are to imitate. To put women in corners and crush them under household drudgrey and servile motherhood is not the true remedy, either for themselve or for the children who would be begotten in the circumstance—probably under obedience to one of the "onnery men." In such cases the mother does control the children. The "onnery men." In such cases the mother does control the children. The "onnery man" controls both, and is the children's earliest and most powerful example. We believe in homes, but we believe in both parents being sensibly qualified homemakers.

So, "Fed Up," I venture to say that the sons of to-day are standing up to the depression just as well as their fathers would have done had they lived their youth through a period of years during which the chances of earning even an odd quarter were slight; and please don't run away with the idea that you are carrying all your family's share of the depression on your manly shoulders. Mr. Uphill spoke of the great coal deposits at Fernie and the oil possibilities of the Flathead Valley, which were crying for men to work them. A road into the valley was urgently needed, he said.

He criticized the relief camp system, and told of visiting a civilian conservation corps camp in Montana, where the men got \$1 s day, of which part was sent to their families, and received much better food than that given out in British Columbia camps ADVOCATES CHANGES ADVOCATES CHANGES

Nelson - Creston Member Says Government Has Made Good Steps So Far

Labor Man Amuses House; Voice From Cariboo Member Urges P.G.E. Extension

The Legislature yesterday heard what three of the eastern the depression and how it should be solved. Stabilization of silver prices, a land policy to absorb more settlers, and an immediate work programme were some of the remedies urged.

"Whether we have sound money or

"Whether we have sound money or not, let us try to preserve some sound, same men and women in British Columbia," appealed Frank Putnam, Nelson-Creston.

"Our people must be put to work, no matter what it costs. This present government, with my full support, was elected on a policy of attacking this problem with a programme of public works. We have a mandate to carry it out.

"The government did very well in organizing a solid Western Canada to make representations to Ottawa, which has the constitutional authority to make such a programme possible under the rules of the game as it has been played in the past.
"But if Ottawa does not act soon, then this government must be prepared to act on its own account.

"The way I look at it is this:

"The way I look at it is this: British Columbia is broke and has 100,000 unemployed. We will stay broke unless we put them to work. So whether we do it by sound money or not, let us see that we have sound men and women, sound boys and girls in this province. They are more important than sound money."

Mr. Putnam said he was conwinced that a wise land policy would absorb many of the unemployed and urged that Indiscriminate settlement be discouraged. He would have settlers on bad land moved to good land and would see that every bit of land is properly inspected before a settler is allowed to take it up.

He urged the government to use its influence for some measure to stabilize silver prices
"If you get silver at 60 cents there would be an end to unemployment in my part of the country," he said.

Mr. Putnam also insisted that farm

"We've heard a lot about world markets and their effect on our prices, but what I say is to hwith the world markets.

"The farmers are going to the poorhouse in automobiles, but they are so badly off they must have horses to draw them.

"The members' indemnities should not be cut. They should be increased four-fold, and I, for one, would show you how to put money in circulation. I USING FAKE MONEY

The unemployed of to-day, said
Major MacKay, were another "lost

of the war period. The "iniquitious"
system of relief must be replaced by
something which would build up
hope and faith in them.

Major MacKay defended his stand
in voting for the bill recreating Columbia riding, declaring he had not
voted that way because of any election promise by the Premier but
because he did not believe democracy
could exist without adequate representation. NO COTERIE GOVERNMENT

NO COTERIE GOVERNMENT

"We can't allow a coterie on Vancouver Island and in Vancouver to
govern the whole province," he said.

Major MacKay deplored the present
condition of the Barkerville Road
and said sound and practical engineering policies were not being
carried out on British Columbia
roads. For instance, grading of dirroads was no use, and a system of
graveling all the more important
highways should be undertaken.

He advocated extension of the
Pacific Great Eastern Railway to
North Vancouver on one terminus
and Prince George on another.

S. S. McKeen, Liberal, VancouverPoint Grey, adjourned the debate.

SCOUT NEWS

There are forty-one rover scout crews and scout clubs at English universities and training colleges.

CRUISING SCOUTS The Cunarder Franconia, on a world cruise, has a special interest to Boy Scouts of many nationalities at the various ports touched. Sixteen younger members of her crew comprise the First Mercantile Marine Deep Sea Scout Troop, and whenever possible they are making contact with brother scouts in the ports visited.

HELPED BULLOCK HELPED BULLOCK

Living up to the Sixth Scout Law, when two Navuso (Fiji) Boy Scouts discovered a bullock stuck and drowning in a river, one dived in and held the animal's head above water, while the other went for a rope and help. When they got him ashore, nearly dead, they placed him head down on a slope, gave him artificial respiration by jumping on his stomach and brought him around.

CLOTHING FOR 14,000

Mr. Putnam also insisted that farm market legislation was essential for the coming crop year to avoid chaos in agriculture. He urged that the government find out what Ottawa proposed to do So that any supplementary legislation needed by the British Columbia House could be presented right away. Time was growing short, he warned.

While a believer in a road to the southern interior when major highway projects were under consideration, he urged that the local roads be kept up to standard for the people who had to use them.

With obvious reference to C.C.F. speeches, Mr. Putnam said it did not take two hours to describe the cause of the depression, nor would he agree that professors of economics knew much more about it than the ordinary man.

"The cause of the depression is human greed and selfishness," he said, "and the cure is do unto others as you would be done by."

The whole problem was human nature and there would be depressions whether there was Liberal, Conservative, Labor or Socialist governments, he said. They were all human.

LABOR MEMBER

LABOR MEMBER

Thomas Uphill, British Columbia's one-man Labor Party from Fernie, entertained the House for about half an hour with his pseudo-serious humor which conveyed a few heart-to-heart facts about the human side of the depression from a working man's angle.

Following are some of his remarks, "If you fed the men in relief camps on strawberries and cream and fricassed chicken they would still grumble—and rightly so, because a person deserves more out of life than food and elothing.

Prince Sigvard and Fraulein Patzek Married in London Hall To-day

By Frank H. King, Associated Pre Staff Writer

By Frank H. King, Associated Fress Staff Writer

London, March 8.—A romance like a fairy tale of fiction came true today with the wedding at noon of Bigvard, Prince of Sweden, Duke of Uppland and grandson of the Swedish king, to the beautiful Fraulein Erika Patzek, twenty-two-year-old daughter of a Berlin industrialist.

In taking his commoner bride at a registry office in the heart of busy London, the twenty-six-year prince—like Lennart, his cousin—abandoned hie princely rights for a romantic union with the German actrees.

Instead of a carillon of belis pealing for their wedding in the ancient capital of the prince's royal forefathers. Sigvard and his bride had chattering song birds in a little park outside and a sea of smilling faces in a sympathetic throng to welcome them on their wedding day.

Obviously happy, the two were married by the superintendent of the registry office.

WED DURING POLLING

Ingly arranged everything so the poling would not interfere with the wedding.

Eniga's brother, George Patzek, a German lawyer, George Gordom, Prince Sigvard's attorney, and the insector-general of registration from Somerset House, Scott Cowan, with his Swedish wife, were witnesses.

The couple made a smooth getaway out of the main door of the building. The prince laughed and waved his band as he helped the bride into a ilmousine, closing the door against a small shower of rice, with which two or three persons had come prepared.

To-morrow the newlyweds will leave for a trip through the Italian Riviers.

In signing the marriage register, Sigvard used his title of prince for the last time.

Ottawa, March 8. — Immediate action with a view to evolving a permanent system of handling unemployment relief and other pressing social problems is urged in a statement issued yesterday evening by the Canadian Council on Child and Family Welfare, of which Miss Charlotte Whitton is the executive secretary. The statement is an analysis of relief conditions now existing and a series of suggestions for the evolution of permanent measures of social aid to those unable to support themselves.

Steps to Meet Problem

can not be worked into an actuarial aystem would have to be met by a permanent system of direct relief.

To avoid the debilitating effect of living on relief a programme of relief work should be launched.

ESTABLISHMENT ON LAND

Establishment of those of the unemployed with experience in agriculture on the land is urged. The statement says the industrialization of the country in recent years and the relief provided in the cities have caused a drift cityward and the establishment of a better equilibrium between urban and rural population demands careful attention.

Canada faces the fifth year of continuous special provision for unemployment relief with a relief load of at least 1,600,000 people at a monthly cost of appsoximately 67,000,000, the statement says. As there is no reasonable hope of emergency conditions disappearing early in the year, those associated with relief should be advised what provisions are to be made.

NOT A PERMANENT CURE

Any effective scheme of a permanent character, the statement says, must recognize frankly that many people now out of work can never be absorbed again in gainful employment and that unemployment insurance is not only not a cure for the She present condition, but will fall short of meeting the problem on a long-term basis.

None-the-less, the council believes, unemployment insurance should be initiated at the earliest possible forment. It should be on a contributory basis and be actuarially sound. At the safe time the present dominion, provincial, and municipal leif organization should be re-cust on efficient lines.

INSTANT HEAT **BANISHES CHILLS**

THE unfortunate young I gentleman in our illustration is indulging in that wellknown pastime that is so prevalent at this time of the year.

Poor fellow, he didn't realize that he could have saved himself this discomfort and mental anguish by installing a gas radiant fire in his home, which would have brought him cosy, cheery warmth instantly, eliminating dampness and preventing chills. These small, inexpensive heaters are always ready to provide healthful, sunlike heat for "be-tween season" variations in temperature, without fuss and bother made necessary by an open fire.

Too, they are economical to operate on the Gas Department's special rate for this type of heating.

We are now showing a variety of models to harmonize with any home furnishings and they are priced reasonably.

Glass of Hot Water Before Breakfast a Splendid Habit

each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy whenever we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing away the poisons and toxins from the body each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of Condensed JAD Salts in it to ffish from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of Condensed JAD Salts and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and the roses begin to appear in the cheeks. A package of Condensed JAD Salts will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way, shortly.

Note: If you are dieting to take off fat it is important that you keep your body free from weightinducing waste matter and poisonous toxins. For this reason Condensed JAD Salts is a valuable aid to reducing.

Stremuous objection was taken by Alfred Bull, K.C., counsel for the plaintiffs before the court now in seasion in Vancouver, to a motion by E. A. Lucas in behalf of the Dukes to serve notice for hearing of the appeal at the June sitting. Mr. Bull sketched the ten years of Iltigation in the courts of Canada and California to recover the Victoria property, culminating in an eight-day trial last September, with judgment for the plaintiffs later, from which the defendants now wish to appeal. **SHOWS HOW TO** PRUNE ROSES

Fred Saunders Gives Demonstration to Rose Growers Yesterday

Upwards of fifty people, all evidently keen rose-grower, attended the pruning demonstration yesterday afternoon which was held in the Empress Hotel gardens. The demonstration was held under the auspices of the Victoria Horticultural Society, with Fred Saunders, head gardener at the Empress, in charge.

Various types of pruning were shown for different requirements, close pruning for exhibition purposes and medium pruning for lots of bloom.

and medium pruning for lots of bloom.

The question of sprays were also dealt with by Mr. Saunders, who sold of sprays that have proved very salisfactory to him. He advised spraying three times at the early part of the year at six-day intervals. This must be done to ensure the control of the numerous peets, and also to ensure the grower of first class bloom.

The demonstration was interspersed with queries from those attending and the answers were of practical worth.

Business Widow" Can Never Regain First Place In Husband's Affections - Why Lay All Blame For Husband's Defection on the Gold Digger?

For to the American man business is not just a means of making money. It is a sport, a diversion, something that thrills and stimulates and absorbs him. It is sitting in on a big game in which he matches his brains and skill and experience against those of other men equally clever and shrewd, and he gets so absorbed in this that he forgets everything else in life.

He forgets his wife and children and his duty to them. Or rather he absolves his conscience by saying that he is working for them, and he atones for not giving them any of his time or thoughts by lavishing money upon them. There are thousands upon thousands of women who have no husband but a cheque book, and multitudes of children whose only conception of their father is as a cash register.

There are plenty of rich homes in which the husband and father is almost as much of a legendary figure as Santa Claus. He is the one who provides luxurious houses and cars and trips and colleges and sport clothes, but he takes no part in the family life.

He is generally eff on some business deal, or he is in conference, or he is meeting a committee, and he is always far too busy to take his wife anywhere, or to get acquainted with his children.

Of course, the man who really loves his family does not expect always to give all of his time and thoughts to his business. Some day he intends to retire and take up the old sweet life with his wife and make friends with his children, but he never does until age or illness tears him out of his siren's arms, and then it is too late. The gulf between them has become impassable.

You often hear the wives of millionaires say that the happiest time of their lives was when they were washing their husbands' shirts and cooking their dinners, helping them to get a start. For then they had their husbands' interest, their thoughts, They were the centre of their husbands' lives. They had not then lost their husbands to business. And they would rather have that warm love than all the levels and palaces and finery that they have lavished on them by husbands who have grown cold and whose only real thrill is a rise in the stock market.

Men make a terrible mistake when they let their business wean them warm from them. Sustiness weare does not compensate for faiture in marriage. You cannot make a happy home just with money. A man must give his heart and his soul to that. The really rich man is not the billionaire, but the one who is rich in the love and respect of his wife and children.

But when a man has once made business his god there is no way in which he can be separated from his idol, and his wife had as well-reconcile herself to taking second place in his affections.

DEAR DOROTHY DIX.—What do you think of designing women who strip married men of the money that should go to the hard-working, thrifty wives who have helped make and save it, and that is needed for the rearing and education of his children?

Answer: I think that a highway robber or a porch climber is a fine and admirable character compared to such a woman. For these women are sneak thieves who steal from babes in the cradle and who, worst of all, not only take away from a sister woman the pennies she has scraped together by a thousand self-denials and economies, but rob her of her husband as well.

If there are any ethics in gold-digging, the bachelor is the legitimate prey of the woman who chisels fur coats and diamond, bracelets and expensive good times out of men, and the should lay off married men and let their money go where it belongs. Conscience, however, has no place in the cheerful workers' code, and experience has taught her that married men are her most promising prospect. They fall for flattery far easier than foxy bachelors do, and are willing to pay for being told how handsome and fascinating they are and how much too young they are for their wives.

But why lay all the blame upon the gentle grafter? What about the married man who takes the money his wife has tolled and ecrimped for and lavishes it on another woman; who buys slik negligees for the girl friend, while his wife patches her old bungalow apron; who rows about the price of the baby's milk and opens champagne for flossles at night clubs? His offence is ten times as great as that of the women who work men for a living, because he is cheating those to whom he owes a debt of honor.

Wives save their faces by always representing their husbands as helples

DEAR MISS DIX—I have been secretly married to a man for four years who gives me his time and money and idolizes me. To protect my position I have suggested that both he and I go out with other boys and girls just as if we were single. He will not consent to this. Says it would destroy our confidence in each other. What is your advice?

JB.

Answer: I think your husband is right, and that just because of the position you hold toward each other you need to be more discreet in your conduct than you would be if you were not married, and that you would be very likely to be filled with Jealousy and suspicion if either went out with another girl or boy.

Also, it would not be giving the girl or a boy a fair deal if you posed as single when married. Some worthy lad might fall in love with you and some girl set her heart upon your husband, and be broken-hearted when they found that their affection was hopeless.

A general meeting of the women's auxiliary to the Prince Edward Branch No. 91 of the Canadian Legion was held on Monday afternoon, the president, Mrs. A. G. Mackie, being in the chair. A new member, Mrs. Dean-Freeman, was welcomed. The secretary, Mrs. H. Merry, read the correspondence which included a letter from E. R. Johnson, secretary-treasurer of the parent branch, thanking the women's auxiliary for financial assistance. A request from Prince Edward entertainment committee, Messrs. W. Simpson, F. Smedley, E. Parker and H. Simpson, for a similar committee from the women's auxiliary, resulted in Mrs. A. G. Mackie, Mrs. F. Smedley and Mrs. Deans-Freeman accepting office. A report from the Provincial Command annual meeting in Yancouver was read. The members decided to hold their meetings in future on the first Monday in each month.

Mr. and Mrs. Baystart, with their three children, Vernon, are visiting Mr. and Mrs. Chickoyne, Atkins's Road.

The first of a series of fortnightly

card parties will be held in the new clubrooms of the Canadian Legion on March 10 at 8 o'clock. Bridge and 500 will be played.

A meeting of the St. Matthew's girls' branch of the women's auxiliary will be held on Friday at 8 o'clock at Holmwood.

HOW CAN WE TRAIN CHILD TO HEED COMMANDS?

By the time we have reached adulthood, we are inclined to rely upon words to stimulate acts. We telephone our order, to the grocer's. We call to the maid to be sure that Junior puts on his coat when he goes outdoors. We remind our husband of the book that is ordered at the bookstore and ask him to stop and bring it home. Thus the small errands of life get themselves accomplished with a minimum of energy expended. DEAF EARS!"

Quite naturally when children ax-rive at the age when they can un-derstand and heed commands, we expect the same results from our rive at the age when they can understand and heed commands, we expect the same results from our words. But we must keep in mind that until a child has learned to act at the stimulus of words, he is quite able to push off this stimulus at will. We say our words fall on deaf ears, but this is only the devious conclusion: The command is heard, but it does not set up those muscular reactions which are essential to motion. The child simply listens and does nothing. The words, do not mean action, because the action has not been an inevitable accompaniment of them.

When we are dealing with the child of the preschool age and endeavoring to make verbal orders and suggestions the motive powers of action, we should work more patiently toward that objective. We fend too soon to rely entirely upon words. Suppose we open the front door and call to the playing child, "Come here, dinner is almost ready!" Nothing happens. The child looks up and goes on playing. Fifteen minutes later he has to be reminded again and in the end, before he does come in, we have to go out and threaten loudly, or in some cases, flourish some weapon which supposedly brings him on the run.

How undignified and how unneces-sary. The child has learned to dis-regard words because they were not constantly followed by their repre-sentative acts. Until the child has learned a prompt response, do not wait for disobedience and then threaten or give numbers but wait for disobedience and then threaten or give punishment, but upon the heels of the order go out immediately and carry it through. Do this pleasantly and patiently but without too much dailying. Then "come in" means just what it says. It does not mean loitering and ignoring the call—it means that the impulse to go toward the house has been established by moving the child toward the house when the verbal suggestion is made. Eventually, if the training is pleasant and consistent, we should be able to dispense with the action and let the words stimulate the correct response.

Algiers, Algeria, March 8.—Discovery of two small planets was announced yesterday by the Algiers Observatory.

It was said they are like two previously reported on January 9 by the same observatory, belonging to a group of asteroids moving between Mars and Jupiter.

The two satellites, which have been designated "1934 BA" and "1934 CL," were found on photographs taken through a small telescope January 18 and February 10.

They have been classified by the International Astronomical Office at Berlin as of the fourteenth magnitude.

Music lovers in Victoria on Monday evening will have the opportunity of enjoying a rare treat when the Beaux-Arts will present in recital three talented artists from Vancouver, Misa Aris Phillips, dramatic soprano: Charles Shaw, violinist; and Ira Schwartz, planist. The concert will be given in the Empress Rotei. All three artists are well known locally, having performed here on previous occasions.

Among the numbers which will be presented will be Sir Philip Sidney's "My True Love Hath My Heart," for voice, plano and violin, an arrangement by Miss Jean Coulthard, promising Vancouver composer and planist. Miss Coulthard has recently been

Atlantans allowed that the 14-year-pld boy at the left in this picture was going to cut quite a figure in golf some day, when he and his partner, Perry Adair, 18; heat Chick Evans and Ned Sawyer in a match at Atlants. But even local pride didn't make due allowance für the fact that he was Bobby Jones.

This determined-looking little old lady was a terror in her day. Fierce-mustached bartenders qualled when she came smashing into their saloons with a hatchet. By the time the speakensy had replaced the taloon. Carnie was too old to got an ax.

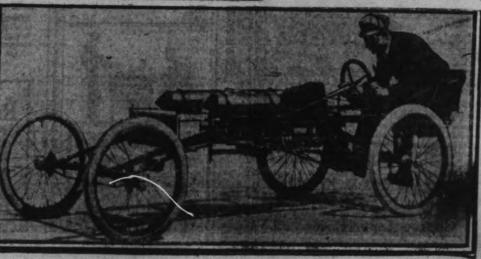

People held their breaths on July 17, 1891, when Captain Dixon dared death by walking a tight rope across the Whirlpool Rapids at Niagara Falls. Note the captain's natty costume, including the Civil War forage cap—what the well-dressed man should wear when out tight-rope walking.

NEURITIS

Mrs. M. H. Redding, Sr., Sarnia, Ont. writes: "From time to time I am bothered by very painful neuritis up my neck and the back of my head. My daughter-in-law is quite often bothered the same way. Both of us depend on T.R.-C's to free us of the neuritis. We have never found anything else that gets rid of the pain so quickly." Poissons along nerve courses cause the agony of neuritic pain, just as poissons in joints and muscles cause rheumatism. Templeton's T.R.-C's counteract these poissons wherever they occur. Pain and Stiffness vanish when you use T.R.-C's. No harmful drugs. T.R.-C's give you quick and safe relief by actually entering your blood stream and helping drive out poissons located there. Wonderful for Rheumatism, Sciatica (stabbing hip pain), Neuralgia (including Tic Douloureux), Lumbaco (Lame Back), Headaches.

terday evening.

The statement was made following the hearing of the lumbermen's case as enunciated by their representatives at the meeting sponsored by the local council of the C.C.F.

John Stevenson, Burnaby, representing the Lumber Workers' Industrial Union, told the audience striking loggers and operators in conference in Vancouver had failed to reach an agreement on the right of the loggers to organize in camps.

The stand of the C.C.F. on the issue was voiced by R. B. Swalles, M.P.P. for Delta, Harold E. Winch and John Frice, members for Vancouver East.

Any advance in the present date for final payment of taxes, as proposed by the City Council, will be protested by the Trades and Labor Council, according to a resolution passed yesterday evening.

### Fine Cast At The Playhouse

A smashing drama punch in every few minutes of the fast-moving action is offered in "Midnight Mary," now at the Playhouse Theatre.

Build-up of dramatic tension is accomplished by a novel introduction of Loretta Young and Una Merkel in leading roles as twelve-year-old children. Their costuming and action is played against backgrounds built in proportions to make them look smaller. Disturbing events shatter the lives of the youngsters as they grow into girlhood and at maturity they are deeply involved in the operations of a gang of croks. Also being shown is El Brendel in "Oisen's Big Moment."

## Greta Garbo Here Friday

The story of the queen who ran away because she wanted to be a human being is certainly not a novel one in the films; it has been presented so often that it is accepted as one of the staples of cinema fare. But in almost every instance to date the story has been a romantic invention with no basis in actuality. With "Queen Christina," Greta Garbo's newest starring Vehicle, coming to the Dominion Theatre on Friday, the story is probably for the first time a completely authentic one. This amazing Swedish regent was really an uncontrollable repell against the bondage of her position and the prejudices of her time, so that the episode in which Miss Garbo becomes involved as the queen may be regarded as one that actually occurred and kept an entire nation shocked for many difficult months.

## Marx Brothers Showing Here

Hilariously mad in their pictures, and madly hilarious in their spare moments, the Four Mad Markmen are as solemn as the opening ceremony of the Olympic Games during the filming of a picture.

Take "Duck Soup," their latest picture for Paramount which is at the Columbia Theatre to-day. A visit to the set was about as funny as an undertakers" convention.

In one corner, sat Groucho, holding his head between his hands. In another corner, sat Harpo, equally glum and dissatisfied with life. In the third corner, Chico was giving a fair imitation of Felix the Cat. In the remaining corner, Zeppo was staring moodily at the ceiling. In the centre of the room, Director Leo Mc-Carey was thumbing the pages of a notebook.

Also being shown on the

notebook.

Also being shown on the same programme is "The Invisible Man," starring Gioria Stuart.

## Will Present Novel Feature

Gien Rice and his Beverly Hill Billies, who will appear at the Em-pire Thestre in person for one week commencing Saturday, will bring to the stage a beautiful musical pro-gramme.

No promises are being made yet y officials of the British Columbia Fire Insurance Under-writers' Association that Victoria day. That organization will wait until it hears from the engineer conducting its survey before maklng any statement, Mr. McGregor

At a meeting of the city firewardens yesterday, the city officials decided to table three resolutions regarding insurance rate matters until the report was brought in, believing that a reduction would be suggested for the city. The report will be placed before the city within three months, it is expected. A fourth motion, asking that tenders be called for policies which fall due in the intervening time, will be placed before the council for passage at its next meeting.

REGARDES OF the contents of the inderwriters' reports, institution of a rating bureau will be sought by Mderman Andrew McGavin, one of he fire wardens, according to a statement made by him yesterday evening. Hope for a reduced rate is seen in fethin function of the fact hat such would encourage the takness of the fact hat such would encourage the takness out of more insurance by the city.

# **SPORTS** MIRROR

ONE OF the most amusing articles ever written about the popular game of English rugby has just come to hand from San Francisco. Jack James, sports columnist for The San Francisco News-Chronicle, is the contributor of the story under the heading. "Thoughts of a cash customer at his first rugby match." James, apparently a keen follower of American football, received quite a surprise when he attended the exhibition match between the touring British Columbia All-Stars and the University of Stanford, which was won by the former 3 to 0, and wrote his article in a very humorous manner.

The article as it appeared in The News-Chronicle follows:

So this is that rugby game I been hearing so much about....What do they call it—"rugger"....Don't look so rugged to me!...Ha! Ha!...Pipe those short, panties and bare knees, will yar...Boy what a gang of American football players would do to these guys!....First degree murder, that's ali!.../Maybe all right, but it looks kinda pansy to me!...

out it looks kinda pansy to me!.... I just can't get the idea of them pare knees... Look like chorus girls.

bare knees... Look like chorus giris.

'r somep'n:....*

Heres' the kick-off... Bet they can't kick it as far as our guys do
... See, I told ya! What's that?...

They intended it to be short?...

Well, then, why don't they recover it?... What's that guy doing?...

Kicking it back?... What's the big idea of that?... Not much of a kick... Went outta bounds... Supposed to go out?... I don't get the idea of this game at all, at all!...

. Now what they doing?...Line-out?...What's that?...Oh, they .. Now what they doing?...lineout?...What's that?...Oh, they
throw the ball back in when it goes
out, huh?...Don't they call no signais?...Well, how do they know
what to do, then?...Or do they get
lipped off by the coach on the
bench?...What's AT?...Coach
supposed to be in the stands, unless
he's playing?...Say, what kinds
game IS this, anyhow? Coaches ain't

Seattle Squad Runs Riot in Second Half to Blast Ribbons' Title Hopes

### CHUCK CHAPMAN IS OUTSTANDING

Canadian Press Seattle, March 8.—Victoria Blue Ribbons, Canadian senior men's basketball champions, to-day had taken their worst defeat of the season, bowing 61 to 37 to Seattle Gilmore Oilers in the first night's performance of the Pacific Northwest tournament here yesterday evening. The defeat knocked the Ribbons out of the running for the championship, but

finish third.

they still have a chance to

Thirsh third.

Three crack forwards, Wait Failor,
Johny Fuller, Jormer University of
Washington star, and Huntley Gordon, proved the downfall of the Canedian titlists.

Despite the valiant work of Chuck
Chapman on defence, who time and
again broke up Gilmore rushes with
spectacular playing, the three Seattle
basketeers ran in a total of forty-six
points which proved sufficient to win
the game.

Play was decidedly Victoria's in the early part of the first half with Gilmore coming from behind three times before they finally forged shead to lead by a scant eight points at half time. 35 to 25.

Leo Johnson's Strathconas Undefeated in Canadian **Curling Championship** 

Toronto, March 8 .- Undefeated in two days of curling in the Mc-Donald Brier bonspiel for the Canadian curling crown, Leo Johnson's Winnipeg Strathconas to-day faced their hardest games of the round-robin play. To-day Johnson led-his curiers against New Brunswick's champions, R. W. Crocker's rink from Newcastle, and Gordon Campbell's Hamilton Thistles.

Thistles.

Hamilton and New Brunswick are closely following the Manitobans, who have five straight wins to their credit. Hamilton and the New Brunswick rinks have suffered only one loss in their five starts. The game between Campbell's men and the Johnson rink is expected to provide the festure of the 'spiel.

Yesterday Compbell went down before Orwell Stewart's Macleod, Alta, rink, 14, to 5. Three Stewart brothers comprise the Macleod rink, with W. Andrews whip. There also are three Campbell brothers on the Hamilton rink with G. Coates.

It was Alberta's first victory and Ontario's first defeat. The Campbells were unable to cope with the accuracy of the westerners.

The annual meeting of the Victoria and District Military Rifle Association will be held in the Armories, Thursday, March 22, at 8 o'clock. Items of importance are on rugby team will be held at the Athletic Park to-night at 7 o'clock. All players are asked to attend.

SPENCERS DEFEAT NAVY

A goal by Luxton, fifteen minutes after the opening whistle, gave Spencers their victory over the Navy at Heywood Avenue. The teams put on a rough exhibition with plenty of stiff checking. Fouls were numerous and several of the players let their feelings run away with them, until the climax was reached in the second half when Brown, Spencers, and Walker, Navy, attempted to give the fans an exhibition of the maniy art, but they were pulled apart before any damage resulted. Three of the Navy players, Caldwell, the goalie, Hall and Beunallach, were knocked out during the match but were revived and continued.

Spencers had the edge in the early part of the first half and missed a good chance to score when McKinnon drove over the bar from a few feet out with a clear goal in front of him. At the other end of the field McMillan, Spencers goalie, misjudged a long shot, the ball nearly bouncing over his head into the net before he recovered and cleared.

Banging home three goals in the initial half, and five in the second canto, which included the hat trick by Jimmy Worswick, diminutive half back, Garrison had an easy time winning from James Bay Liberals by an 8 to 1 soore.

Wilkinson netted the first marker of the game ten minutes after the start when he beat Sadler with a good drive. Miller made it 2 to 0 about five minutes later. Breaking fast from the centre, James Bay Liberals scored their only goal of the match when Ross's shot rebounded from the upright and hit the net.

Taking up the offensive after the interval the Tommies made it 4 to 1 when Edwards scored. Three successive markers by Jimmy Worswick, gaire the Work Point eleven a 7 to 1 score, and then Edwards finished up the scoring ten minutes from time. TARE EARLY LEAD

Gaining a four-point lead in the initial half, Colonist displayed the better form in the final canto and checked fn with a 29 to 15 victory over Nanaimo in the men's B final.

Close checking featured the first ohalf, and when the teams left the floor for the rest interval the score of atood 11 to 7 in favor of the Newsies.

The second half was only minutes would when Gordon Moore, front line sharpshooting ace of the Colonist went off on personals. The Newsies gradually moved away from the hard-fighting up-islanders and coasted through to a 29 to 15 victory.

BEAVERS WIN EASILY

Beavers showed too much class for Cumberland. Oille Goldsmith set the pace for the winners, registering thirty of his team's total points.

The locals' were leading 20 to 7 as the rest interval arrived. Goldsmith weath opened and dropped home four baskets in quick succession. From this stage on the Beavers dominated the play and scored rapidly.

Tommy Macedo. Ted Lewis, Alan LeMarquand and Norm Hill handled the games.

"Do you suppose that Mrs. Paige herself destroyed them after her interview with you?"

There was silence.

"Did Mrs. Paige mention to either of you the receipt of a letter in the morning mail which had disturbed her very much?"

"No." denied Cleveland and Mrs. Phelps in chorus.

"Did she mention a phone call which had upset her?"

"No."

"Then why are you leaving the table?"

"Because I thought there were no more cakes and I want to go to the woods to get some more honey out of the bet tree."

"There are pienty more cakes. I'll hake you some fresh ones," said the muskrat lady. "Now that the children have gone to school, I can have time to bake you as many cakes as you want. But the little bunnies keep me busy while they're at the table."

"They like your cakes as much as I do," said Uncle Wiggily with a laugh. So he sat down sgain and had two or three more pancakes with honey on and then he said: "Well, now I think I'll go to the woods and get some more honey." And I'll also look to see if it is time to tap the maple trees, get some of the sweet sap and boll it into maple sugar so we can have syrup for our cakes as well as molasses and honey."

"That's a good idea," squeaked Nurse Jane, for she had a squeaky voice, and no matter how much cassa well as molasses and honey."

"That's a good idea," squeaked Wiggily thought.

Away hopped Mr. Longears to the woods back of his bungalow. There was a little snow yet left on the country, such as down in the warm southland, even flowers were beginning to blossom.

"But this is the time of the year for us up north here," said the rabit, "to begin to look for maple sap to run. March is maple sugar time. I hope I see some maple trees and then, in a few days, I can start making maple sugar."

But there seemed to be no maple trees in that part of the forest and on. All of a sudden he heard of use lower wiggily hopped on and on and on. Semarang. Java, March 8.—
After a day's visit to this port, the Canadian world cruising liner Empress of Britain sailed at 6 o'clock yesterday evening and headed for the picturesque island of Ball, where she will spend two days.

Yesterday the 400 world tourists from Canada, the United States and Europe enjoyed motor drives around Semarang and New Tjandi and had luncheon at the Hotel du Pawillon, returning to their ship for dinner.

After the call at Ball the Empress of Britain will visit Zamboanga and then proceed to Manila, where she is expected next Wednesday.

The paths of two world cruising liners will almost cross at Ball, for the Cunard liner Franconia is expected there next Thursday. She is to-day traveling between Sydney, Australia, and Port Moresby in Papua. She will reach New Guinea to-morrow and will then go tothe lesser Sunda Islands for a brief call before proceeding to Ball.

Then the Franconia will go to Java, the Straits Settlements, Ceylon, South Africa and across the south Atlantic to South America. sland distribution.
Before proceeding to Vancouver at o'clock this afternoon the ship took board a parcel of frozen fish and ocally canned loganberries for the eturn voyage to London.

TOURISTS ABOARD

Pirst round trip tourists of the season from California arrived here by the Damsterdyk. The ship hrought seven Los Angeles residents, who will stay with the ship during her visit to northwest ports, and will return to the southern port aboard the same ship. One passenger was aboard from England. All proceeded with the ship to Vancouver after brief sightseeling drives about Victoria.

Having sailed from San Francisco for hours late on Tuesday, it will be early to-morrow morning before the Ss. Ruth Alexander, of the Pacific Steamship Lines, reaches the Rithet piers from Los Angeles and San Francisco. Her passengers will disembark at 6 o'clock, and the ship will proceed to Seattle an hour later.

Bound for Victoria and Seattle, from New York, the Grace liner Santa Rosa sailed from San Francisco this afternoon at 5 o'clock. She is expected here Saturday morning at 8

## Crew Tells Vivid **Story of Collision**

Ss. Black Eagle Reaches
New Jersey Port With
Crew of Ss. Concordia,
March 7, 8 p.m.—Shipping:

not later than midnight, Monday April 2.

Fare and one-quarter for the round trip will be charged for trips leaving the starting point from Thursday March 29, to midnight, Sunday April 1, with return journey commencing from the destination station on to later than midnight, April 3.

As will be noticed, the fare and one-quarter concession gives virtually six days range of travel, enabling passengers to cover considerable territory during the vacation period, the generous single fare concession admits of a three days' outling, ample to enable travellers to visit relatives and friends over fairly long distances.

Crew of Ss. Concordia, Which Sank in Atlantic; Bedlam Reigned When Ships Collided

*Weehawken, N.J., March 8.—Her bow crushed, the steamer Black Eagle arrived in port to-day carrying the crew of the freighter Concordia which she rammed and sank Monday near Sable Island in "the graveyard of the Atlantic."

The rescued sallors told a vivid
story of the collision, Like a phantom ahip, the Black Eagle emerged
from a fog, crashed into the Concordia and backed away, leaving a
gaping hole.

"We hardly knew what had happened," one of the seamen said, "It
was so sudden."

No lives were lost, none was injured, but bedlam reigned on the
sinking boat. Bulls bellowed and were
cascaded into the water.

Captain Alian Murray of the Concordia said:

"Just a few moments after we
heard the Black Eagle's bow
struck us amidship, penetrating an
officer's cabin. The officer had left
just a moment before.

The rescue was effected without incident, Captain Murray said.
"We abandoned ship about an hour after the collision in our four lifeboats," he said, "Foghorns in the lifeboats enabled us to contact the Black Eagle, We finally found her and scrambled aboard."

Captain Murray was sure the Concordia sank after he had left her.
